

Brittany Welch

Staff Product Designer | Design Systems, AI-Native Design, Motion Design

Brandon, MS | 662-550-0523 | blrwelch@gmail.com | bwelch.me | linkedin.com/in/blrwelch

SUMMARY

17 years designing and evolving design systems for enterprise and consumer platforms.

Deep expertise in design systems architecture, AI-native product design, and motion design.

Loves solving ambiguous problems from end to end, from discovery through prototyping and iteration.

Systems thinker who builds reusable patterns, not one-off screens.

Partners closely with product, engineering, and stakeholders to translate complex requirements into scalable workflows.

Uses AI tools including Claude and Cursor as a core part of the design process.

Has built design systems across regulated pharma and Fortune 500 e-commerce environments.

EXPERIENCE

Senior Product Designer

July 2021 – July 2026

Lextech Global Services, Chicago, IL (Remote)

- Migrated an enterprise design system from regulated pharma into Claude Design's Design Systems tool, translating hundreds of components into an AI product environment while maintaining compliance requirements.
- Built and maintained design systems for 2 pharmaceutical clients, establishing component libraries and usage guidelines adopted across product and marketing teams.
- Created motion design and interactive prototypes in Figma and After Effects to validate flows, communicate interaction intent, and align teams before development.
- Facilitated discovery workshops and stakeholder interviews to validate design directions and build alignment across product, engineering, and leadership.
- Led primary research for AstraZeneca, interviewing pharmaceutical reps to surface training gaps, then synthesized the findings into journey maps and a solution prioritization that shaped the training redesign.
- Led end-to-end design of the company's internal AI Practice platform, one of several AI initiatives owned across the org.
- Interviewed teammates to establish a baseline of AI readiness and capability.
- Rapidly tested and iterated on AI tools to find the best fit, pivoting quickly as needed.
- Established and implemented branding for aiwhy.io, the customer-facing marketplace for AI agents and skills.

Senior UI Designer

February 2019 – June 2021

AutoZone, Memphis, TN

- Led design on a cross-functional Product Discovery team for AutoZone.com, a Fortune 500 e-commerce platform serving 60M active users.
- Designed and shipped the Product Finder, still in production on autozone.com, expanding coverage from 3 to 8+ vehicle-specific product categories.
- Led interaction design and component architecture for the full responsive redesign of AutoZone.com, which shipped with zero reported traffic loss and set patterns adopted across the design org.
- Drove design quality through critique and review rituals, raising the craft standard and giving junior designers a clearer feedback model.
- Mentored junior designers and led new-hire onboarding, building a more consistent design practice across the team.

UX Developer II

March 2011 – February 2019

C Spire, Ridgeland, MS

- Owned UX design and front-end development for 3 full flagship site redesigns over 8 years, spanning C Spire's consumer wireless, careers, and business services sites.
- Built and maintained the Techmvmt design system, supporting \$3M+ in scholarship and STEM program initiatives including MVMT, the C3 Coding Challenge, and Microsoft TEALS.
- Built and maintained the company's pattern library and design standards, establishing a shared visual language across every product surface and team.

- Developed deep expertise in complex consumer product flows, including account management, upgrade eligibility, product catalogs, and multi-step promotions.
- Partnered across marketing, product, and engineering to ship unified digital experiences across a broad, fast-moving product portfolio.

SKILLS

Systems & Platform Design Systems Architecture, Component Libraries, Design Tokens, Multi-Platform Design (iOS & Android), Design Language Development

Product & Interaction Product Design, Interaction Design, Rapid Prototyping, User Flows, Information Architecture, AI-Native Product Design

Visual & Motion Visual Design, Motion Design, Advanced Prototyping, Responsive Design

Collaboration & Craft UX Research, Discovery Workshops, Stakeholder Facilitation, Cross-Team Collaboration, Mentorship

Tools Figma (Advanced Prototyping), Adobe After Effects, Adobe Creative Cloud, Sketch, Zeplin, Claude, ChatGPT, Cursor, Jira, Azure DevOps, Notion

EDUCATION

B.S. Graphic Design, Samford University, Birmingham, AL (2008)
